

The Coeur d'Alene Airport (COE) is developing a Master Plan Update to identify needs and airport development opportunities. Your response to this survey will provide the Airport with valuable insight into aircraft operations, user requirements, and growth potential. This survey does not constitute any operational commitment on your part, and is only being used for planning purposes. **Your participation is important.**

Please return the completed survey to:

Please be detailed and specific. If necessary, please continue your comments on an additional page.

1. What brings you to COE (business, pleasure, cargo shipment, other)? Please be specific.

Based Business Pleasure Training Maintenance Other (please specify) _____

2. What aircraft make(s) and model(s) do you currently operate at COE, and where are they based?

Current Aircraft Makes & Models	N-Numbers	Where is aircraft based?

3. Do you plan to acquire additional aircraft, and if so what make(s) and model(s) are you considering?

4. What are your frequent origins and destinations to and from COE, and typical useful load factor?

Aircraft Model	Frequent Origins/Destinations	Typical Useful Load Factor

Useful load is the difference between the maximum takeoff weight and the empty operating weight.

5. How many operations for each aircraft model did you conduct at COE in 2009? How many in 2010? How many do you estimate you will conduct at COE in 2015? One takeoff is one operation. One landing is one operation. One trip to and from the airport is two operations.

Aircraft Model	Number of Operations		
	2009	2010	2015

The information you provide is beneficial, and greatly appreciated. Thank you.

6. Are COE's runway lengths adequate for your most demanding aircraft at maximum desirable weight, in either wet/icy conditions or hot conditions? (circle one for each)

	<u>Length</u>	<u>Adequate if wet/icy?</u>		<u>Adequate if hot?</u>	
		YES	NO	YES	NO
Runway 01-19	5,400'	YES	NO	YES	NO
Runway 05-23	7,400'	YES	NO	YES	NO

Do you currently make aircraft performance concessions to operate at COE? YES NO

If yes, under what conditions? (wet/icy, hot, weather) _____

If yes, what is the payload reduction (in pounds) _____

7. Are the following COE facilities adequate for your current and/or future needs? (check one each for current and future needs)

FACILITY	<u>Adequate for Current Needs?</u>		<u>Adequate for Future Needs?</u>
